Parents' Corner

Dear Parents,

As parents/guardians, we all want the best for our children, to see them grow into confident, capable, and compassionate adults, and we naturally seek opportunities that will enrich their educational journey and equip them with the skills they need to thrive. You're in luck - the Award offers that and more!

The Award offers a unique opportunity for your child to develop essential life skills that will help them grow into a well-rounded individual by focusing on four key areas of development, contributing to their success both in and out of school.

As a parent/guardian, you have the extraordinary opportunity to register your child for a transformative journey that will shape their future in profound ways.

Hear it from Daniel:

Throughout my Award journey, my father has been supporting me and consistently pushing me forward. Whether in national competitions or daily practice, **his motivational talks, though sometimes tedious, were instrumental in helping me complete my Award. I owe much of my success to his unwavering support.** From camping expertise to sewing skills, the Award equips you for life and future challenges, shaping you into a better individual.

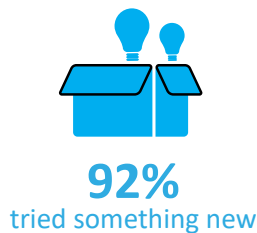

Daniel Zhao, Gold Award Recipient

Don't miss this chance to empower your child's journey towards becoming the best version of themselves. Register them for the Award today and watch as they flourish into confident, capable individuals prepared to tackle life's challenges with resilience and determination.

Hear the impact of the Award from other young peoples!

Each year, we ask young people who complete an Award level to share their experiences and the personal impact of the Award. Their feedback consistently highlights the profound, positive changes they've undergone. From building confidence and resilience to developing leadership skills and a sense of community, our participants' stories are a testament to the life-changing benefits of the Award.

As a result of completing their Award...

“

It is easy to spend time performing the activities that you enjoy, but I always wanted to have an impact wherever I go. **The Award taught me to set SMART goals which helped me focus my attention on what I hope to achieve and clarify my path forward.** After that, it is just a matter of putting in the work to reach the goal.
